

# Cardiac Risk in the Young

This photograph is reproduced with the kind permission of Oriel High School, Great Yarmouth, where two of their young students died from Sudden Death Syndrome

Accurate Health Department statistics are not available. Experts suggest that in the UK at least **12** apparently **“fit and healthy”** young people die suddenly **each week** from undetected heart conditions

**THE MAJORITY OF THESE DEATHS ARE PREVENTABLE**  
*please support CRY's national heart screening programme.*
