

Cardiac Risk in the Young

1 in 300 people have a potentially **life-threatening** cardiac condition that will require lifestyle modification or treatment

CRY believes **all** young people should have the **choice** to have cardiac testing.

What happens at a CRY Screening?

CRY operates a national screening programme available to anyone aged 14 - 35 in the UK.

For more information or to book an appointment contact CRY via;

www.testmyheart.org.uk or **0203 691 0000**
