### Rob Andrew MBE

Ex-England rugby player

*“It was following the sad and sudden death of Scott Donkin (aged just 10 years old) whilst playing mini rugby in my region that the charity CRY was brought to my attention. Every week, 12 apparently fit and healthy young people die suddenly from a previously undiagnosed heart condition. Many, although not all of these young people, will have been involved in regular sporting activity. It is therefore vital that we continue to raise awareness of CRY’s work and campaigns, particularly of the importance of cardiac screening.”*
