

**Cardiac
Risk in the
Young**

Registered Charity No: 1050845

CRY Patron

Tom James MBE

Former Olympic rower

"I became a CRY Patron following my own treatment and from finding out the very positive effects that the charity has. Raising awareness of these potentially fatal heart conditions and how they can be treated if identified in time, is crucial.

I hope that by telling my story more young people will consider it is worth having their heart tested by CRY."

Every week
in the UK
at least **12** apparently
fit and **healthy**
young people **die**
of undiagnosed
heart conditions

Offering **help**
and **support** to
affected families
